SUMMARY

I am a highly motivated MERN Full Stack Developer with a strong passion for technology and a keen interest in Data Structures and Algorithms (DSA). My technical expertise, coupled with a love for coding, allows me to create dynamic and efficient web applications. Beyond my development skills, I'm an avid reader and a passionate traveler, always seeking new adventures and experiences. I'm dedicated to delivering innovative solutions while embracing continuous learning and personal growth.

SKILLS

Languages: C, C++, Python, SQL, JavaScript, HTML, CSS, Tailwind CSS, BOOTSTRAP, EJS, NodeJs, MongoDb, ReactJs.

Technologies: MongoDb Atlas. Git GitHub, VsCode, CodeEditor.

PROJECTS

Technology	**1-Authentication Page**	github.com/2115425Amar/LoginPage

I learned hashing and salting concepts. I used md5 and bcrypt packages. Also, I learned local authentication and google oauth2.0 authentication with passport.js package.

Technology	**2-RestApi**	github.com/2115425Amar/hostAPI

RESTful web APIs (for Android, IOS, or JavaScript frameworks) using Express framework and MongoDB with a good structure practices based on clean MVC Architecture.

Technology	**3-Drum-Kit**	https://2115425amar.github.io/Drum-Kit2/

Advanced JS and DOM Manipulation project for the Complete Web Development Bootcamp course by Angela Yu. The project is used to implement DOM Manipulation and Event Listeners using JS-ES6.

Technology	**4-Tindog Website**	https://2115425amar.github.io/BootstrapDogFunding/

Tindog is a simple web application built with HTML, CSS, and Bootstrap that allows users to browse and connect with other dog owners in their area.

Technology	**5-Qr Code Generator**	github.com/2115425Amar/QrcodeGenerator0

This is a QR Code Generator through inquirer and qr-image (Node Package Manager)

Technology	**6-Simple Restaurant Application**	https://2115425amar.github.io/reactfirst/

An Application using React JS, a JavaScript library to make awesome UI by Facebook.
This application uses component oriented UI creation paradigm. All components are written in JSX and ES6 style and are combined to get a single build for production purpose using Webpack 5. Responsive.

Technology	**7-E-Commerce Website(developing)**	github.com/2115425Amar/Ecommerce-2

E-Commerce Project using React.js, Redux, MongoDB, Node.js, Express.js | MERN Stack.
Seamless shopping, search and explore different product categories, add products to cart, and checkout swiftly. Become a seller and add products, monitor sales, and gather customer feedback.)

EDUCATION

2021 - present	**Ajay Kumar Garg Engineering College**	College

Btech in CSE(Data Science)
Cum Cgpa-7.976

20**- 2020	**SRVP Gonda**	School

I did my schooling from Shree Raghukul Vidya Peeth Civil Lines Gonda
12th -> 86.80
10th -> 81.7

LANGUAGES

English , **Hindi** - native
